MIGRANT JUSTICE PLATFORM

A UNITY BLUEPRINT

In June of 2019, a Blue Ribbon Commission comprised of 20 individuals, from various grassroots organizations, backgrounds, and communities, convened to launch the development of a policy blueprint for use by the next administration to immediately repair harms and reverse failures caused by the current and previous administrations. The result is the Migrant Justice Platform, a roadmap of **Executive and Legislative actions** that come from grassroots voices from across the United States and abroad, and parts ways from the "single-bill" strategy that has defined immigration politics for two decades. It is a unity blueprint for a new conversation that must include impacted communities, remedy past mistakes, and see the whole of the global crisis. As such, this document is intended as a launching point for an open-source project that centers and elevates grassroots voices and experts on various aspects of necessary action on immigration.
