12:20 pm 1.00 hr ethics	Professional Responsibility Rules and (Other) Barriers to Access to Civil Justice The demand for affordable access to civil legal services is on the rise at the same time we face significant threats to sustainable public funding for legal services. This leaves many disadvantaged and financially challenged people who face civil legal issues to navigate the legal system without professional legal assistance. The good news is that we have begun to see the development of alternative legal services delivery models and the emergence of innovative solutions designed to address the access to justice crisis. Such innovative approaches are starting to lead to greater efficiencies in legal services delivery and improved self-help and assisted-self-help tools. This Ethics Presentation will discuss the ways in which the Rules of Professional Conduct both support and impede our efforts to address the removal of barriers to access to civil justice. Lois R.
