Beyond SaaS: Licensing Strategies for Today's Tech

Perpetual licenses are rare, "term" licenses have become subscriptions, and the phrase "software-as-a-service" falls short of describing today's technology offerings. This presentation discusses recent developments in licensing such as aggregation of rights under the FTC's and DOJ's updated Antitrust Guidelines for the Licensing of Intellectual Property, "app-store" requirements, and data bundling. Also explore practical approaches to finding the balance between monetizing technology and managing risks from both the provider's and the recipient's perspective.

Post-COVID-19: Workplace 4.0

This presentation focuses on how the COVID-19 experience will change our workplace now and going forward. Topics of discussion include considerations and best practices regarding re-openings and return to work for businesses who have not yet initiated that process and lessons learned from those who have, such as monitoring of government orders, testing, PPE, human resource and labor considerations and litigation; re-opening of closed facilities; ongoing opportunities for working remotely; reimagined collaborative spaces; ongoing operations for essential workers and retail/restaurant workers; and other timely areas of ongoing interest and concern.

Open Source: What You Need to Know Now

Most people doing M&A or IP due diligence just think of open source as something to avoid, but that isn't sufficient anymore. Learn about the sweep of open source, from the basic terminology, to how it affects your employee agreements and patent portfolio, to the arguments about open source software that are showing up at the U.S. Supreme Court.

Navigating Employment Law in a Pandemic

An examination of the Emergency Paid Sick Leave Act (EPSLA) and Expanded Family Medical Leave Act (EFMLA) from the Families First Corona Response Act (FFCRA), the employment-related provisions of the Coronavirus Aid, Relief, and Economic Security Act (CARES Act), and state and local shelter-in-place orders. This session also examines the application of existing employment laws to the current pandemic, including the Texas Unemployment Compensation Act (TUCA), the America with Disabilities Act (ADA), the Occupational Safety and Health Act (OSHA), and the Worker Adjustment and Retraining Notification Act (WARN). Alternatives to layoffs, including pay reductions, work share arrangements, partial unemployment, and furloughs are also discussed.

Antitrust 2020: Changing Politics, Technology, and Problems have caused Upheaval! A Real-Time Presentation of Disruption in Antitrust and Competition Law

Since the beginning of this year there have been profound changes in the antitrust and competition landscape. New lawsuits are being filed and existing cases pressed hard despite the COVID-19 Pandemic. Technology companies need to be aware of the storm now breaking over licensing for 5G in lawsuits pending in federal courts in Texas and Delaware. The 180 degree change at the Department of Justice that has the Antitrust Division actively litigating with non-practicing patent entities against companies that produce technology, software, semiconductors and telecom products. COVID-19 drove a dramatic to the ground rules and procedures for collaboration for companies that can provide essential technology, products and services. This will be a real-time presentation of what is happening right now and how it could impact you.
