<p>3:25 pm 0.75 hr</p>	<p>Navigating Tomorrow's Health Tech Laws Today</p> <p>HHS is expected to release new standards next year, including updated requirements for business associate agreements. This session addresses data privacy and other issues relevant to tech companies and provides an overview of hot topics in the industry. The panel explores legal considerations related to the 21st Century Cures Act Interoperability, Information Blocking, and the ONC Health IT Certification Program and proposed implementing rules. As states across the nation are quickly enacting their own privacy laws designed to regulate the collection, sharing, selling and other processing of consumer health data, it is important to understand how to apply the complexities to your business model.</p> <p>K. Lance Anderson, Dickinson Wright PLLC - Austin, TX Nancy Bonifant Halstead, Reed Smith LLP - Washington, DC Peggy Kozal, Dickinson Wright PLLC - Denver, CO</p>
<p>4:10 pm 1.00 hr</p>	<p>Legal Guardrails for Religion, and Politics and Tech Companies</p> <p>This topic explores the intersection of religion, politics, and employers in the technology sector. Particular attention is given to the intersection between political speech and activism in the workplace and the Supreme Court's newly announced standard for religious accommodation in the workplace. Corporate positioning on religious and political issues will also be addressed.</p> <p>Jason Boulette, Boulette Golden & Marin L.L.P. - Austin, TX</p>
<p>5:10 pm In Austin Only</p>	<p>Adjourn to Reception</p>

Jonathan Lass, Jackson Walker LLP - Austin, TX

<p>7:30 am In Austin Only</p>	<p>Conference Room Opens</p> <p>Includes continental breakfast.</p>
<p>8:30 am 1.00 hr</p>	<p>Open Source: Changes in Licenses and Landscape</p> <p>The biggest news on open source in 2023 was license and support policy changes: Red Hat CENTOS Stream, Red Hat's customer terms, and Hashicorp. This presentation outlines issues to spot for license and policy changes. Also, it summarizes the efforts of the open source community on defining "open source AI."</p> <p>Heather J. Meeker, Tech Law Partners and OSS Capital - Scotts Valley, CA</p>

<p>9:30 am 0.75 hr</p>	<p>Confidential Information and IP in Government Contracting: State and Federal</p> <p>Insights from the former General Counsel of the Texas technology agency and discussion from outside counsel regarding recent policy initiatives on intellectual property in government contracts by the Federal and State Governments, and what that means for contractors; a discussion of recent disputes over IP rights in the public sector.</p> <p>Edmund Amorosi, Haynes Boone, LLP - Tysons Corner, VA Martin H. Zelinsky, Law Office of Martin H. Zelinsky - Westminster, CO</p>
<p>10:15 am</p>	<p>15-Minute Break</p>
<p>10:30 am 0.75 hr</p>	<p>Gen AI Regulation and Legislation - Federal, State, and Global</p> <p>Generative artificial intelligence (Gen AI) adoption across industries and ever-expanding use cases are driving the U.S., states, EU, and countries across the globe to develop and implement comprehensive Gen AI regulation and legislation. Hear a discussion of these developments, related challenges, and the consensus that much of the Gen AI rules and laws, which shape the long-term growth and direction of the sector, will be established in the coming 12-24 months.</p> <p>Stephen M. Anstey, Kilpatrick Townsend & Stockton LLP - Washington, DC</p>
<p>11:15 am 0.75 hr</p>	<p>Responsible AI: Maintaining Your Standards with Emerging Tech</p> <p>AI brings tremendous possibilities but also heightened responsibilities around ethics, privacy, and compliance. This session provides guidance on realizing the potential of generative AI while upholding key principles of responsible AI use. Discussion focuses on developing responsible oversight, setting clear boundaries, and instilling core values into use of AI systems, and best practices for evaluating potential use cases, reviewing for bias and monitoring deployed models, and maturing AI governance to maintain high standards amidst rapid technological change.</p> <p>Jon Neiditz, Kilpatrick Townsend & Stockton LLP - Atlanta, GA Derek Ventling, Kirkland & Ellis LLP - Austin, TX</p>
<p>12:00 pm In Austin Only</p>	<p>Pick Up Lunch</p> <p>Included in registration.</p>

Ethical Concerns of AI and the Practice of Law

We all see multiple stories about the rapid growth and entry into our daily lives of artificial tools. They seem to be everywhere. It is difficult to overstate how much things change with the rise of these new technologies, or how important it is that companies embrace the opportunity to execute it correctly. Having conversations regarding the proper embrace of these technologies and these tools is a crucial first step, including drafting policies to assist lawyers with their beneficial and thoughtful adoption and use of these technologies. This presentation defines the state of artificial intelligence tools, what benefits and risks exist, and finally steps to begin embracing these technologies with appropriate guardrails, policies, and training. It is less likely that artificial intelligence will destroy industries, and much more likely that companies that embrace artificial intelligence will take overtake those companies that do not embrace artificial intelligence.

Mark G. McCreary, Fox Rothschild LLP - Philadelphia, PA
