### **Tax-Exempt Bonds, Post Issuance Compliance, and Management Contracts**

This session will address post-issuance compliance requirements relating to tax-exempt bonds and how to best establish programs, policies, and procedures to avoid tax complications for debt-financed facilities. With a focus on management contracts, including why colleges and universities enter into them; the rules and safe harbors that govern management contracts; how management contracts are to be taken into account in private business use calculations; and what an issuer can do to manage any private business use that might arise from a “nonqualified” management contract, the session will provide the audience with a better understanding of private business use, management contracts, and how to appropriately discuss and address those issues on their campus.
