**Presiding Officer:**

**Zeina El-Azzi**, Blue Earth Inc. - Austin, TX

8:00 am	<b>Registration</b>  Includes continental breakfast.
8:50 am	<b>Welcoming</b>
9:00 am 0.75 hr	<b>What's New With Federal Incentives</b>  A lively update on developments at the federal level affecting the renewable energy market. An unusually large number of issues of interest to independent generators are in play with the IRS, including the network upgrade payments to utilities to relieve grid congestion, prepaid power contracts, solar inverted leases, series LLCs, and targeted partnership allocations. Congress will have decided whether to give developers more time to start construction of new projects to qualify for production tax credits. The solar companies were pressing to convert their 2016 deadline to complete projects into one merely to start construction. What is the outlook for further extensions? What issues are coming up in transactions?  Keith Martin, Chadbourne & Parke LLP - Washington, DC
9:45 am 1.00 hr	<b>EPA Clean Power Plan Review</b>  With well over 4 million comments, EPA's Clean Power Plan is nothing if not controversial. Discuss some of the aspects of the plan that have made it so controversial including its legal context, its assumptions, the compliance options it affords, its potential costs and benefits, its effect on the nation's energy mix, and some of the practical and legal issues it raises.  Moderator: Jeff Civins, Haynes and Boone, LLP - Austin, TX Panelists: Kathleen Spees, The Brattle Group - Cambridge, MA David B. Spence, The University of Texas at Austin - Austin, TX
10:45 am	<b>Break</b>
11:00 am 0.50 hr	<b>Current and Trending Environmental Issues for Wind Energy</b>  The landscape for wind energy is undergoing change on many fronts—some are generally believed to have a positive impact (such as the Clean Power Plan) and others are viewed as increasing risk and uncertainty (such as the status of permits for species impacts including birds and new requirements for noise impacts). Explore these and other trends in the industry.  Lisa Montgomery Shelton, Andrews Kurth LLP - Austin, TX

11:30 am 0.75 hr	<b>Distributed Solar Models</b>  Explore the different regulatory and market models that have been utilized to implement distributed solar generation.  Moderator: Tuan Pham, PowerFin Partners - Austin, TX Panelists: Karen Poff, Austin Energy - Austin, TX Maura Yates, MP2 Energy - Houston, TX
