What's New?

Hear a lively update on developments affecting the renewable energy market.

Keith Martin, Norton Rose Fulbright US LLP, Washington, DC

9:00 a.m. 1.00 hr

Federal Energy Policy

A group of key participants in the renewable energy policy debates in Washington discusses what policy changes to expect from the new administration and Congress, what issues are being intensively lobbied and the outlooks for new tariffs, permitting reforms, further restrictions on foreign entities of concern, UFLPA detentions, and more.

Moderator:

Keith Martin, Norton Rose Fulbright US LLP, Washington, DC

Panelists:

Neil Chatterjee, KKR, Washington, DC

Emily Domenech, Boundary Stone Partners, Washington, DC

David Kautter, RSM US LLP, Washington, DC

JC Sandberg, American Clean Power Association, Washington, DC

10:00 a.m. .75 hr

Federal Regulatory Update

Review what changes may be in store for generator interconnection reforms; transmission planning, permitting, and cost allocation; greenhouse gas limits; and public lands. Will the Trump Administration reverse Biden's efforts to facilitate the clean energy transition?

Richard A. Glick, GQ New Energy Strategies, Washington, DC
Sudeen G. Kelly, Jenner & Block, Washington, DC

10:45 a.m. 15-Minute Break

11:00 a.m. .75 hr

Texas Legislative Review Update

The 89th Texas Legislature is in session, and the Texas electric market is expected to receive significant attention again. Hear a breakdown of what lies ahead for a flourishing industry facing political challenges in a conservative state including key legislative issues that are expected to be addressed this session.

Aaron C. Gregg, Capitol Law Group, Austin, TX

11:45 a.m. .50 hr

Case Update: U.S. vs. Osage Wind LLC and the Outcome

Learn about an 11-year legal odyssey involving the Osage Nation's challenge to a large wind farm, including 84 wind turbines situated on fee land within the Osage Reservation in Oklahoma, without a "mining" permit. After a significant Tenth Circuit reversal, a federal judge granted a permanent injunction, found the project to be a continuing trespass and ordered a trial on damages and conversion. It's a cautionary tale about tribal sovereignty, land use requirements, the need for community engagement and building support for renewable energy projects.

Logan C. Hibbs, Crowe & Dunlevy, Tulsa, OK

12:15 p.m. .50 hr

Case Update: In re Winter Storm Uri

Winter Storm Uri had an impact across all 254 counties, and the ensuing Multi-District Litigation has seen several phases and appeals. Review the history of the case and update of its current status.

KEYNOTE LUNCHEON PRESENTATION

1:05 p.m. .75 hr

Seeking Energy Truth

Energy and climate are often presented as a binary choice between "clean and dirty." Of course, this does not represent reality and the complex global trade offs that go on at the intersection of Energy, the Economy, and the Environment. Only by understanding these trade offs will we be able to address the challenge of affordable, reliable energy for all global citizens, with lower emissions and a cleaner environment.

Dr. Scott W. Tinker, Chairman, Switch Energy Alliance & Director Emeritus, Bureau of Economic Geology, UT Austin, Austin, TX

1:50 p.m. 15-Minute Break

2:05 p.m. .75 hr | .25 hr ethics

Major and Practical Deal Considerations for Project-Level M&A

Cover deal considerations in project-level renewable energy M&A, including both development-stage MIPAs and later stage Build Transfer Agreements. Briefly touch on deal structuring considerations and look at certain key provisions in the primary transaction documents for each deal type.

Charles P. Ciaccio Jr., KO Law PC, Denver, CO
Carson Haddow, Morgan, Lewis & Bockius, LLP, Boston, MA

MCLE

This course has been approved for Minimum Continuing Legal Education credit by the State Bar of Texas Committee on MCLE in the amount of 14.25 hours, of which 2.25 credit hours will apply to legal ethics/professional responsibility credit. The University of Texas School of Law is a State Bar of California approved MCLE provider (#1944), and an Oklahoma Bar Association MCLE presumptively-approved provider (#169).

2:50 p.m. .75 hr | .25 hr ethics

Procurement and Construction in Energy Projects

Explore key considerations and potential pitfalls in structuring and carrying out procurement and construction for energy projects, including competitive bid processes, early design and engineering, and key contractual provisions, such as financing and tariff considerations and UFLPA and IRA requirements.

Luke Edney, Norton Rose Fulbright US LLP, Austin, TX
Jeremy Tripp, Norton Rose Fulbright US LLP, Houston, TX

3:35 p.m. 10-Minute Break

3:45 p.m. .75 hr

Flexible Structures for Renewable Energy Construction Financing

Explore how construction financing differs from other types of project financing and discuss case studies to accommodate variable tax equity investment structures (ITCs, PTCs, and direct sponsor transfers).

Legal Considerations in Geothermal Energy Development and Pore Space Rights in Texas

Technological advancements have broadened the potential applications for harnessing geothermal energy from wells in Texas. With applications of this technology exploring ways to combine geothermal wells with subsurface pore spaces, it is important to outline the rights of all interested parties, including the surface, mineral, and geothermal estates. The Texas legal landscape has historically evolved in two separate paths, one concerning geothermal rights and the other pore space rights. However, practitioners are now forced to consider both geothermal rights and pore space rights within the same transaction. Explore the legal complexities surrounding geothermal energy development in Texas, with a particular focus on the ownership and regulation of pore space rights.
