

**EXCLUSIVE RECEPTION SPONSOR**

**Stahl, Davies, Sewell, Chavarria & Friend, LLP | [sbaustinlaw.com/](http://sbaustinlaw.com/)**

Since 2000, Stahl, Davies, Sewell, Chavarria & Friend, LLP has helped clients build more than 25 GWs of solar, wind, energy storage, and gas-fired energy plants. The firm has worked on the development, finance, acquisition and sale of energy projects in Texas, California, Oklahoma, Nebraska, and numerous other states. Its practice includes energy storage projects, commercial real estate transactions, State of Texas sales/franchise tax planning and disputes, and Texas Public Utility Commission work. The firm's lawyers are experienced in preparing wind, solar, and energy storage leases and easements, and in working on purchase/sale/option agreements, property tax agreements, environmental matters, crossing agreements, BOP/EPC construction contracts, and mineral accommodation agreements. We analyze and resolve the myriad of legal, title, environmental, and survey issues arising in the development of energy and real estate projects. We work closely and collaboratively with project developers and financial parties to coordinate the real estate documents, governmental approvals/permits, surveys, title policies, and legal opinions necessary to close deals.

**PREMIER SPONSORS**

**Akin Gump Strauss Hauer & Feld LLP | [akingump.com/en/](http://akingump.com/en/)**

Akin Gump is a leading international law firm with more than 900 lawyers in offices throughout the United States, Europe, Asia and the Middle East. Our projects and energy transition team advises clients that develop, finance, construct, operate, buy and sell energy and infrastructure projects around the world. Our depth in the energy sector includes significant experience with traditional and renewable energy and other infrastructure projects, including those related to the energy transition, such as wind, solar, geothermal, hydroelectric, bioenergy, landfill gas, carbon capture and storage, renewable natural gas, and hydrogen projects.

Allen & Overy LLP | [allenovery.com/en-gb/global](https://allenovery.com/en-gb/global)

# DAVIS GRAHAM & STUBBS

**Davis Graham & Stubbs LLP | [dgsllaw.com/](https://dgsllaw.com/)**

Davis Graham & Stubbs LLP attorneys help clients navigate regulatory hurdles and take advantage of emerging opportunities in the renewable and alternative energy sectors in the Rocky Mountain West and beyond. Our multidisciplinary capabilities as a full-service business law firm make DGS uniquely positioned to counsel clients regarding siting, constructing, permitting, and obtaining other necessary regulatory approvals for wind, solar, hydropower, geothermal, biomass, waste-to-energy, energy storage, transmission infrastructure, and other energy projects.

**Madison Street Renewables**

**Orrick, Herrington & Sutcliffe LLP | [orrick.com](http://orrick.com)**

Orrick, Herrington & Sutcliffe LLP has a widely recognized renewable energy practice, with over 150 lawyers focusing on the energy industry globally. We've been working on renewables projects for almost 40 years, and today our team works across 26 offices on four continents, representing prominent industry participants in virtually every sector of the industry, including solar, wind, geothermal, biofuels, hydro, landfill gas and storage. Our team members not only understand the legal aspects of renewable energy transactions, but we are intimately familiar with the key commercial issues that drive our clients' businesses and success. For this reason, the most successful industry participants consistently select us for their most important transactions in renewable energy, including development, finance, and M&A.

**INSTITUTE SPONSORS**

**Bernstein Shur | [bernsteinshur.com/](http://bernsteinshur.com/)**

Bernstein Shur is a Portland, Maine-based law firm advising energy clients across the U.S. and around the world. Our interdisciplinary energy team has a wealth of experience in utility-scale and distributed generation wind, solar, hydroelectric, natural gas, and biomass transactions, including established and emerging energy storage technologies. We routinely act as lead and local counsel on energy projects and transactions throughout New England and around the world at all stages of the project life cycle, ranging from \$1 billion electric utility acquisitions to the development of 1-2 megawatt distributed generation projects. We are experienced in all aspects of project development, debt and equity financing, and due diligence, including title and site control, state and local permitting, regulatory, construction, property tax valuation, and environmental matters. But we're not just energy attorneys; we're also business partners for our clients, helping them get new products to market efficiently and cost-effectively and strategizing about the best ways to advance their long-term goals.

**Dykema | [dykema.com/](https://www.dykema.com/)**

Dykema is a leading national law firm, serving business entities worldwide on a wide range of complex business issues. With approximately 385 professionals based in 14 offices located in California, Illinois, Michigan, Minnesota, Texas, Washington, D.C., and Wisconsin, Dykema consistently delivers top value to clients. Combining a deep understanding of the energy industry with extensive experience in renewable energy projects, clients call on us to counsel them through all aspects of renewable energy projects, from financing to finish. We mitigate risk, support growth, and help implement or increase sustainable and environmentally conscious benchmarks in their business. Our clients include public utilities, electric cooperatives, developers, property owners, contractors, suppliers, purchasers, lenders, investors and small business owners and entrepreneurs. Unparalleled client service is at the heart of our approach to the practice of law. That focus has been a cornerstone of our success for the past 90+ years and allows us to give timely, creative solutions to the challenges that face our clients.

**FOLEY & LARDNER LLP**

**Foley & Lardner LLP | [foley.com/energy/](https://www.foley.com/energy/)**

Foley's Energy Industry Team helps clients address regulatory and legal concerns to keep their traditional and renewable source projects on track. Whether you are a company whose core business is energy or you are handling projects that involve some facet of the energy industry, Foley's Energy attorneys are key strategic partners—from due diligence, negotiation, and regulatory approval to closing. We have a long history of successfully managing energy projects and financings, particularly involving renewable fuel sources such as onshore and offshore wind, solar, hydro, geothermal, biomass, ethanol, and biodiesel. Our services to the renewable energy market are comprehensive and include permitting, community relations, land rights, equipment procurement, construction, finance, power purchase arrangements, interconnection and project acquisitions, mergers, securities offerings, compliance issues, litigation, joint ventures, and divestitures. We are one of the most experienced law firms in structuring transactions to best utilize the federal production tax credit, the investment tax credit, and the grant in lieu of investment tax credit—the Section 1603 grant.
