UT LAW CLE Continuing Legal Education

eCourse
Answer Bar: Maximizing Technology in Your Law Practice

Session 1 1.00 hr | 1.00 Ethics	**The Duty of Technology Competence** Understand the importance of technology competence for your practice and the ethical obligations to be competent. Explore the current landscape and recent decisions in this area, as well as common problem areas for attorneys. **Hon. John G. Browning,** Of Counsel, The Cole Law Firm, McKinney, Texas and Distinguished Jurist in Residence, Faulkner University School of Law - Plano, TX
Session 2 0.75 hr	**Conducting Cost-Effective E-Discovery and the Use of Technology Assisted Review (TAR)** Examine how technology-based processes, specifically technology assisted review (TAR), can be cost-effective and efficient solutions for e-discovery in litigation. This session highlights situations where TAR is often the preferred tool over attorney review and flags times that it is not, and discusses how to address contentious issues that may arise in TAR-related negotiations with opposing counsel. **Christine Payne,** Gunster - Austin, TX **Hon. Andrew Peck,** DLA Piper LLP US - New York, NY
Session 3 0.50 hr | 0.50 Ethics	**Communication** Attorneys have a duty to keep client communication secure. Get practical tips on conducting communication with the courts or with opposing counsel, as well email filtering and its impacts on communication including filing deadlines, etc. **Lisa Angelo,** Angelo Law Firm PLLC - Houston, TX
Session 4 0.75 hr | 0.75 Ethics	**AI Update** Artificial intelligence has been in the legal and cultural zeitgeist for a few years now. Explore the transformative effects (and lack thereof) of artificial intelligence on the legal industry in that time. Examine both the advancements and limitations, highlighting how AI has streamlined processes, improved efficiency, and where it still falls short in replacing human expertise. **Henson Adams,** Haynes Boone, LLP - San Antonio, TX
Session 5 0.75 hr | 0.75 Ethics	**Use of AI in Litigation** Understanding the basics of how AI works, the dangers and pitfalls with current AI technology, and ways AI can (or should not) be used in litigation. **J. Hoke (Trey) Peacock III,** Susman Godfrey LLP - Houston, TX
