Risk Management

- ▶ What is it?
- ▶ Why is it important?
- ▶ Who oversees and implements risk management?
- ▶ When does a nonprofit undertake risk management?

*Life is more risk management,
rather than the exclusion of
risks.*

Walter Wriston

Common Challenges to Risk Management

- ▶ Is the business team perceiving risk management as a barrier with little or no value?
- ▶ Do departments act as silos and fail to see their department's impact across the organization?
- ▶ How does a nonprofit balance the costs of back-office tools that help mitigate risks with the resulting reductions in program dollars?
 - Does cost benefit analysis work with risk management?
 - Are there off-the-shelf risk management approaches that could minimize cost?
- ▶ How does an organization identify risks?
- ▶ How does it distinguish acceptable risks from the unacceptable ones?

*Be the one who points out what
is going right and helps out
when things are going wrong.*
