## **Biased? Me?**

How Biology and Psychology Affect our **Opinions and Actions—and How to Recognize** and Improve our Interpersonal Skills

**Claude E. Ducloux** Board certified, Civil Trial Law, and Civil Appellate Law, Texas Board of Legal Specialization **Director of Education, Ethics and State** Compliance

- Strategies for dealing with others
- Strategies for our own decisions

LAWP

# **Primer: The Biology of Decision Making**

#### "There's a reason you feel that way!"

#### <sup>4</sup> Implicit ("unconscious") Bias – Our worldview

Factors which form our unconscious views and preferences:

- How and Where we are brought up
- Who socialized us during formative years
- Our friendships then... and now
- Media Influences
- Individual experiences

We are hard-wired to to prefer those who look, sound and share similar interests.

*Emerging from the Shadows: Unconscious Bias in the Workplace"* – Katrina Grider, 2018 UT-CLE 25<sup>th</sup> Annual Labor Law Conference.

### <sup>5</sup> The biology of decision making

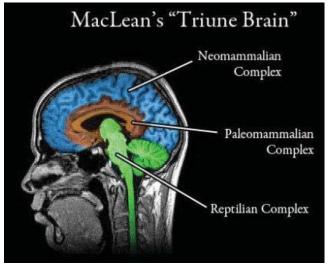

### LAWPAY AN AFFINIPAY SOLUTION

The brain's **frontal lobe** presides over reasoning, self-control, and decision making, including:

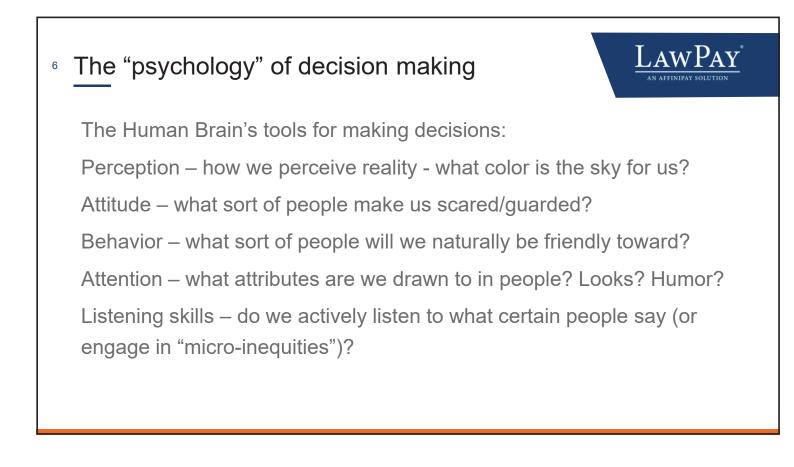

- Social behavior
- Complex cognitive behavior
- Your personality

By contrast the **limbic cortex** (also nicknamed "lizard brain") is associated with emotion, addiction, and mood. It is much more primitive in development.

#### OUR DECISIONS RELY ON BOTH PARTS OF THE BRAIN.
