Emerging Trends in SNTs

- Imagine that you are an attorney and you draft a special needs trust for your clients that have a 17-year-old child named Kathy who has a significant disability. You get terrible news a week later that the parents died in a tragic accident. Although her disability is significant, she is otherwise healthy and expected to live until she is 87 years old. What challenges will Kathy's trustee need to address over the next 70 years including current and future laws and regulations, ABLE Accounts, support systems and government aid.
- **Stephen W. Dale**, The Dale Law Firm, PC - Pacheco, CA
