POST PRODUCTION EXPENSES

Heritage v. Nationsbank (Tex. 1996)

- Lessee was taking transportation costs from the wellhead to the point of sale and deducting them from royalty payments.
- The lease provided that royalties were to be paid on “market value at the well” and yet still free of any “deductions...by reason of any required processing, cost of dehydration, compression, transportation, or other matter to market such gas.”
- **Held:** The term “market value at the well” entitled lessee to make reasonable post production deductions in order to arrive at a price reflecting value “at the well”.
- The ‘no deductions’ clause was a merely a restatement of “existing law” and “surplusage”.
