What is an amenity pond?

Small lakes used for recreational or aesthetic purposes

Location, Location, Location!

- Location determines permitting requirements:
 - Is the pond on a state water course?
 - Will the water used to fill the pond be diverted from a state water course?

State Water Course

- All water in a state water course is owned by the State. Tex. Water Code § 11.021(a).
- A permit is required to impound, store, or divert state water. Tex. Water Code § 11.022, 11.081, and 11.121.

Defining a State Water Course

- Well defined bed and banks.
- A current of water.
- Permanent source of supply.

Location and Supply Source

Location on or Source of Supply from State Water Course → Water Rights Permit Required.
