Assembling the Land

- Projects primarily located in rural locations
- May not know for certain the exact locations of the proposed improvements
- Developer may seek the assistance of a single title company or office to assist them in coordinating title services for the project

Clearing Title Issues

- Title to the project area may never have been examined
- Anticipate requirements for additional documentation to be recorded to establish insurable title
- Process of clearing title may be lengthy
- Access to and from the property to be insured
- Confirmation of access on the survey
- Mortgages or other lien matters
