CYBERSECURITY ITEMS THAT EVERY LAWYER SHOULD KNOW – BUT ESPECIALLY LITIGATORS

Elizabeth [Rogers](mailto:Rogers@gtlaw.com) | rogersel@gtlaw.com | 512-320-7256
Shawn Tuma | Shawn.Tuma@solidcounsel.com | (214) 472-2135

THE CYBERSECURITY RISKS

Cybersecurity needs for companies (and firms).

- Strong cybersecurity basics.
 - Policies and procedures focused on cybersecurity.
 - Social engineering.
 - Password and security questions
 - Training of all employees.
 - Phish all employees (esp. executives).
 - Signature based antivirus and malware detection.
 - Multi-factor authentication.
 - Backups segmented from the network.
 - Incident response plan.
- Encryption for sensitive and air-gap for hypersensitive data.
- Adequate logging and retention.
- Third-party security and supply chain risk management.*
- Intrusion detection and intrusion prevention systems.*

Breach! Immediate Priorities

- **Leadership!**
- Assess the situation
- Be a counselor
- Instill confidence
- Bring peace
- Facilitate rational thought & rational behavior

WHY THE CHAIN OF CUSTODY IS IMPORTANT

- Breach declaration by the internal team and outside forensics vendor
- Imaging activities
- Location of devices
 - Where has it been?
 - Who had access?
