Focus on Utilization

Our Goal

Maximize efficiency & reduced health care costs while maintaining quality of care

Our Process

Identify clinical practice trends which represent significant variation between providers of the group.

1. Identify evidenced-based guidelines
2. Educate with data
3. Measure & report
4. Leadership & accountability

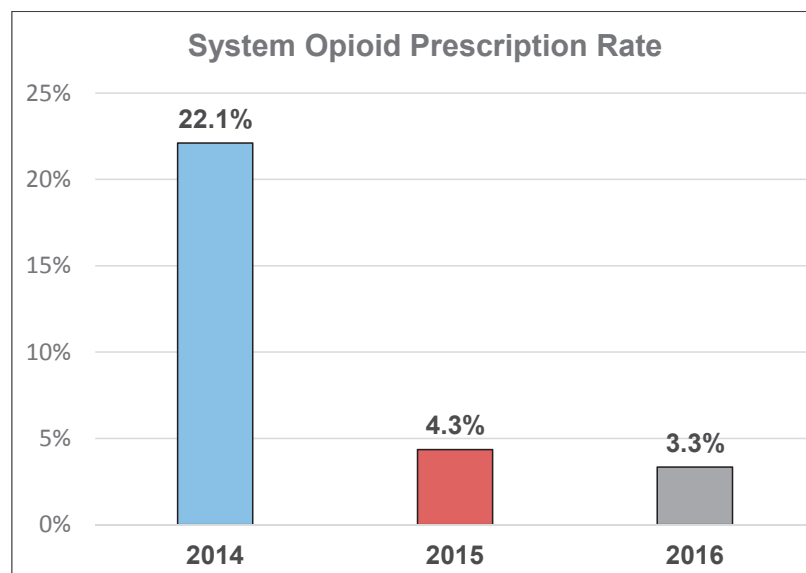

Our Focus

1. Items associated with patient harm
2. Large financial implication to patients, payors, and health systems
3. Frequent use in the ED with well-validated clinical prediction rules and measurable
