

PRESENTED AT  
14<sup>th</sup> Annual Mergers and  
Acquisitions Institute

October 4-5, 2018  
The Ritz-Carlton  
Dallas, Texas

**M&A After Tax Reform:  
A Practical Survival Guide to New Opportunities  
and Challenges Facing Deal Lawyers**

Samantha Crispin, Baker Botts L.L.P.  
Dave Klein, PwC  
Alejandro Ruiz, McDermott, Will & Emery LLP  
Michael Threet, Haynes and Boone, LLP

## Impact of Tax Changes on M&A Transactions

---

- **Background Overview**
  - Changes in Income Tax Rates
- **Transaction Structure Considerations**
  - Acquisition Vehicle: Flow-Through vs. C-Corp
  - Alternatives
  - Traps for the Unwary
  - Acquisition Type: Asset vs. Stock
  - Acquisition Financing: Leverage
- **Other Transaction Tax Matters**
  - Purchase Price Allocation
  - Changes Impacting Foreign Operations
- **Serious Uncertainty**

# Background Overview: Changes in Income Tax Rates

## Corporate Income Tax Rates

- New Corporate Income Tax Rate: 21%
  - Prior graduated rates with top rate of 35% now 21% flat rate
  - Effective for tax years after 12/31/17 and permanent going forward
  - Fiscal year taxpayers benefit from rate change starting 1/1/18 by applying a blended rate for the fiscal year based on the number of days of the fiscal year before and after the effective date

## Individual Income Tax Rates

- Reduction in Rates
  - Highest marginal rate for individuals reduced from 39.6% to 37%; 3.8% net investment income tax retained
  - 29.6% effective federal rate to the extent the 20% “pass-through deduction” under Section 199A is available

# Background Overview: Changes in Income Tax Rates

## Before Tax Reform

50.5% combined corporate & dividend tax rate compared to 39.6% top ordinary income tax rate

## After Tax Reform

39.8% combined corporate & dividend tax rate compared to 37% top ordinary income tax rate

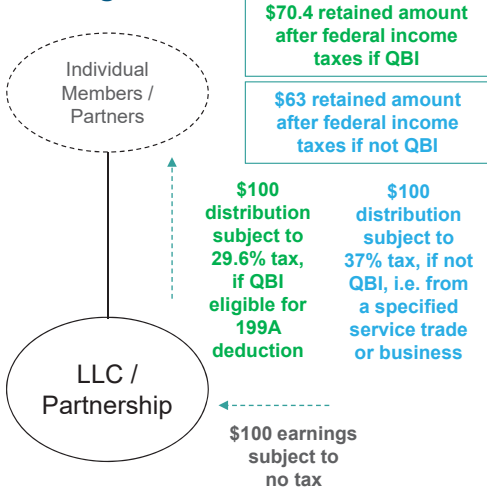

# Background Overview: Changes in Income Tax Rates

## Partnership / Flow Through Income Tax Changes

- Qualified Business Income Deduction
  - 20% deduction for qualified business income through 2025 (sunset for tax years beginning after 2025), limited to greater of a) 50% of W-2 wages, or b) 25% of W-2 wages + 2.5% of capital assets
  - Meant to capture earnings from capital (and not wages)
  - Specified personal services businesses not eligible, except for taxpayers with taxable income <\$157,500/\$315,000 (deduction phased out over next \$50k/\$100k)
    - Personal services businesses include, among others, legal, financial, healthcare or any business where the principal asset is the reputation or skill of its employees or owners
  - Deduction for qualified business income may impact structure of management equity vehicles and employment companies due to the need for W-2 wages
    - Recent guidance addresses aggregation and related entity planning

# Transaction Structure Considerations: Acquisition Vehicle Comparison Flow-Through vs. C-Corp

## Flow-Through Vehicle

Specified service trade or businesses include (among others): **healthcare, law, financial services, and investing and investment management services**  
 Pre-Reform: tax rate of 39.6% would result in \$60.20 retained.

## Corporation

**39.8% combined corporate & dividend tax rate compared to 37% top ordinary income tax rate**  
 Pre-Reform: 50.5% combined corporate and dividend tax rate would result in \$49.50 retained.
