RECENT STUDY

Hazelden Betty Ford Foundation and ABA Commission on Lawyer Assistance Programs, featured in March 2016 edition of Texas Bar Journal. First comprehensive study in 25 years, involved almost 15K attorneys from 19 states.

- Major findings:
 - 21 percent of licensed working attorneys are problem drinkers (19.2 for those “in-house in government, public or non-profit”)
 - 28 percent struggle with some level of depression
 - 19 percent suffer from anxiety
 - Younger attorneys in the first 10 years of their practice exhibit the highest incidence of these problems.
