The 2019 Texas Estate and Trust Legislative Update

(Including Decedents' Estates, Guardianships, Trusts,
Powers of Attorney, and Other Related Matters)

1. The Preliminaries.

1.1 Introduction and Scope. The 86th Regular Session of the Texas Legislature spans the 140 days beginning January 8, 2019, and ending May 27, 2019. This paper presents a summary of the bills that relate to probate (*i.e.*, decedents' estates), guardianships, trusts, powers of attorney, and several other areas of interest to estate and probate practitioners. Issues of interest to elder law practitioners are touched upon, but are not a focus of this paper. (And, to be honest, sometimes I go off on a tangent and discuss a bill of interest to me that has nothing to do with any of the areas mentioned above.)

1.2 CMA Disclaimers. While reading this paper, please keep in mind the following:

- I've made every reasonable attempt to provide accurate descriptions of the contents of bills, their effects, and in some cases, their background.
- Despite rumors to the contrary, I am human. And have been known to make mistakes.
- In addition, some of the descriptions in this paper admittedly border on editorial opinion, in which case the opinion is my own, and not necessarily that of REPTL, Craig Hopper, or anyone else.
- I often work on this paper late at night, past my normal bedtime, perhaps, even, under the influence of strategic amounts of Johnnie Walker Black (donations of Red, Black, Green, Gold, Blue, Platinum, or even Swing happily accepted!). Craig Hopper has informed me that he's also happy to accept donations of Scotch.
- As companion bills make their way through the legislative process, I usually base descriptions on the most recently approved version in either chamber. In the case of REPTL bills, I sometimes have access to drafts of substitutes before they are officially posted, in which case the descriptions may be based on what we think the bill will look like, rather than what the currently-online version looks like.
- As a consequence, while the descriptions contained in this paper are hopefully accurate at the time they are written, they may no longer accurately reflect the

contents of a bill at a later stage in the legislative process.

Therefore, you'll find directions in Section 1.6 on page 2 for obtaining copies of the actual bills themselves so you may review and analyze them yourself before relying on any information in this paper.

1.3 If You Want to Skip to the Good Stuff ... If you don't want to read the rest of these preliminary matters and want to skip to the legislation itself, you'll find it beginning with **Part 6 on page 7**.

1.4A Note About Linking to the Electronic Version. Feel free to link to the electronic version of this paper if you'd like. If you do, use the URL found on the cover page to link to the most recent version of the paper:

www.snpalaw.com/resources/2019LegislativeUpdate

Once you click on that link, you'll open a PDF version of this paper. However, **don't** copy the URL that you'll find in your browser's address bar when you open the PDF! That's likely to be a 100+ character web address that will take you to that particular version of the paper only, and only so long as that version remains posted. Trust me – the link I've given you will take you to the right version each time.

And note that you can bring up my previous legislative updates going back to 2009 by substituting the appropriate odd-numbered year for "2019" in the URL.

1.5 Where You'll Be Able to Find the Statutory Language After the Session's Over. In previous legislative updates, after the session was over and we knew what had passed, I added attachments to the update that included the actual language of bills marked to show what had been added or deleted. But this was quite lengthy. It took over 100 pages in the 2017 update, more than doubling the size of the paper. So, in an effort to be green (for anyone getting a hard copy), we're going to change things up. I've prepared a separate supplement that contains all of that statutory language – or at least the language I deem worthy to include. You may download it by pointing your browser to:
