Agenda

- China patent system
- Tips for preparation considering a Chinese filing
 - Specifications
 - Claims

China Patent System

China Patent System

- **First-to-file system**
- **Three types of patents**
 - Invention patents
 - Utility model patents
 - Design patents
- **Three ways of filing**
 - Direct filing
 - Paris convention filing
 - PCT filing with China as designated country

China Patent System - Invention

- **Eligible subject matter**
 - **Technical requirements (problem - means - effects)**
 - **Statutory exceptions**
- **Novelty**
- **Inventiveness (three-step method)**
 - **Determining the closest prior art**
 - **Determining the distinguishing tech features of the invention v. tech problem actually solved by the invention**
 - **Determining whether the claimed invention is obvious to a PSITA**
- **Usefulness**

Drafting Tips
