Reed Smith LLP

Partner, Houston  
wbartnick@reedsmith.com

# AI Foundations

- A** AI model
- B** Training data
- C** Live data
- D** AI model drift
- E** Data shift

## Example use cases

### Across all of your cases

#### Privilege

Build more robust privilege models with examples from across cases

#### Contracts and other “classifiers”

Automatically sort documents with specific characteristics

#### Junk

Cull spam and clearly irrelevant documents at the beginning of a case

### For specific practice areas

#### Patent IP

Automatically identify documents related to clinical trials or a certain pharmaceutical

#### FCPA

Create models for common issues (kickbacks, corruption) or geographies (Russia, France)

#### Employment

Create models for issues in common claims like discrimination or harassment
