Contents

We'll discuss issues related to:

1. Timely filing for patent applications and patent searching
2. Using the internet for copyrighted content and drafting agreements
3. NDAs and employee/contractor agreements
4. Trademark prosecution and functionality including domains

Bonus:

IP Territoriality

Distinctiveness in a culture of copying

Cost of cutting corners

Fail to timely file a patent application on your invention

- What do the sharks often ask?
 - Do you have a patent?

- New products, new services, new features, new GUIs, etc.

- 35 U.S.C. §102(a):

(a) Novelty: Prior Art. – A person shall be entitled to a patent unless--

- (1) The claimed invention was patented, described in a printed publication, or in public use, on sale, or otherwise available to the public before the effective filing date of the claimed invention; or
- (2) The claimed invention was described in a patent issued under section 151, or in an application for patent published or deemed published under section 122(b), in which the patent or application, as the case may be, names another inventor and was effectively filed before the effective filing date of the claimed invention.

3

3

Fail to timely file a patent application on your invention (cont'd)

(b) Exceptions.—

- (1) **Disclosures made 1 year or less before the effective filing date of the claimed invention.**—A disclosure made 1 year or less before the effective filing date of a claimed invention shall not be prior art to the claimed invention under subsection (a)(1) if—
 - **(A)** the disclosure was made by the inventor or joint inventor or by another who obtained the subject matter disclosed directly or indirectly from the inventor or a joint inventor; or
 - **(B)** the subject matter disclosed had, before such disclosure, been publicly disclosed by the inventor or a joint inventor or another who obtained the subject matter disclosed directly or indirectly from the inventor or a joint inventor.

ABSTRACT
 A system for allowing a shoe wearer to lean forwardly beyond his center of gravity by virtue of wearing a specially designed pair of shoes which will engage with a hitch member movably projectable through a stage surface. The shoes have a specially designed heel slot which can be detachably engaged with the hitch member by simply sliding the shoe wearer's foot forward, thereby engaging with the hitch member.
