Section 45W - Qualified Commercial Clean Vehicles

3

UT LAW CLE

TEXAS Law

Eligible Property

- **Qualified commercial clean vehicles that are “clean” vehicles as defined in Code Section 30D or fuel cell vehicles as defined in Code Section 30B. In addition the vehicle must be:**
 - Acquired for use or lease by the taxpayer and not for resale,
 - Of a character subject to the allowance for depreciation (unless not subject to a lease and placed in service by a tax-exempt entity), and
 - Not eligible for Section 30D Clean Vehicle Credit has been allowed.
- **If the vehicle is a clean vehicle, it must be:**
 - Propelled to a “significant extent” by an electric motor/battery that has a capacity of at least 15 kilowatt hours (or, for commercial vehicles with a GVWR of less than 14,000 pounds, at least 7 kilowatt hours of battery capacity), and
 - Capable of being recharged from an external source of electricity.
- **Qualified Fuel Cell Motor Vehicles are also eligible for the commercial vehicle credit.**

4

Credit Amount

- **The lesser of:**
 - 15% of the basis in the vehicle (increased to 30% if the vehicle is neither gas nor diesel powered), or
 - The increased price of the clean vehicle relative to a comparable vehicle. A “comparable vehicle” is any vehicle of comparable size and use to the eligible clean vehicle and that is powered solely by a gasoline or diesel engine; comparable vehicles need not necessarily be of the same model or even of the same manufacturer.
- **The credit amount is subject to a hard cap of:**
 - \$7,500 for vehicles with a GVWR of less than 14,000 pounds, or
 - \$40,000 for all other eligible vehicles.
