

SPECIAL NEEDS TRUSTS 101: The Basics

University of Texas School of Law
19th Annual Changes and Trends Affecting Special Needs Trusts
February 9-10, 2023

Presentation
by:

Molly Dear Abshire

1

Scope of Presentation

- Overview of the Use of SNTs
- Public Benefits for People with Disabilities
- How Trusts Affect Medicaid Eligibility
- Drafting SNTs
 - First-Party SNTs
 - Third-Party SNTs
- Administering SNTs, including planning opportunities

2

Part 1

Planning with Trusts

3

Planning with Trusts

- Testamentary / Inter vivos Minor's Trusts
 - Testamentary / Inter vivos Support Trusts
 - Multi-generational Creditor Protection Trusts
 - Irrevocable Life Insurance Trusts
- The type of trust used is determined by the specific goals that we are trying to achieve for our client.

4

Planning with Trusts: Protection

- From minor or spendthrift beneficiary
- From being counted as an estate asset
- From future creditors
- Special Needs Trusts
- Protection from being considered as a “countable resource” that is “available” to the trust beneficiary by a public benefits agency

5

Planning with Trusts: SNTs

- Identify the specific public benefit program
 - Understand the characteristics of that program
 - Determine if a trust is necessary
 - If yes, what type of trust is required to meet the goals with regard to that specific program
- What *are* the programs?

6
