Practice Tip for LPs Registered as LLPs

LLP registration record is shown as an "associated entity" with respect to the LP record (and vice-versa). However, each one is a separate filing record that maintains its own status.

When a domestic LP files an instrument that impacts the LP's existence, the LLP registration of the LP is not updated to reflect the filing of the instrument.

Consider filing a withdrawal of the LLP registration record when the existence of the underlying LP ceases due to a termination, merger, or conversion.
