5

THC and Cannabis Plants

THC

- Characteristics of Stimulant, Sedative, Tranquilizer, Hallucinogen
- Natural product from the Cannabis plant (*Cannabis sativa*)

Other Cannabinoids

- 61 cannabinoids in *Cannabis sativa*
- *Cannabis indica*
 - more THC than CBD

Preparations

- Plant material: <15% THC
- Sinsemilla: <17% THC
- Resin/Hash: <20% THC
- Hash oil: 20-70% THC

100 Cannabinoids
545 Compounds
Limited Study

Δ^9 -tetrahydrocannabinol
(THC)

Characteristics:

Hydrophobic

pKa: 10.6

V_d : ~10 L/kg

Kevin Schneider, Ph.D.
Forensic Toxicologist
Virginia Department of Forensic Science
Northern Laboratory, Manassas, VA
