Presiding Officer:

Zeina El-Azzi, Brightmark Energy - Austin, TX

7:30 am In Austin Only	Registration Opens Includes continental breakfast.
8:20 am	Welcoming Remarks
8:30 am 0.75 hr	Federal Incentives Update Hear a lively update on developments at the federal level affecting the renewable energy market. A new administration and Congress take office in January with a new agenda. Renewable energy projects face deadlines to start construction to qualify for tax credits. Developers are making some common mistakes. Will the deadlines be extended again by Congress? There are now more than 35 tax equity investors and renewable energy tax equity is more than a \$13 billion market. Two key cases before the US claims court are being closely watched for their potential effect on solar tax basis issues. Several important topics remain in play with the IRS, including prepaid power contracts, series LLCs, and targeted partnership allocations. Keith Martin, Chadbourne & Parke LLP - Washington, DC
9:15 am 0.75 hr	Legislative Outlook & Policy Update Explore how Texas and other states are treating renewable energy policy and what factors are driving their decisions. Charlie Hemmeline, Texas Solar Power Association - Austin, TX J. Christopher Hughes, Husch Blackwell LLP - Austin, TX Susan Williams Sloan, American Wind Energy Association - Austin, TX
10:00 am 0.50 hr	Case Law Update Review recent court decisions involving renewable energy. Amy Hsu, Tailim Song Law Firm - Dallas, TX

Review these developments and take stock of what they mean for project siting decisions going forward. Hear insights into what those developments tell us about the U.S. Fish and Wildlife Service's approach to its statutory mandates and what we can expect to see in the year to come.</p> <p>M. Benjamin Cowan, Locke Lord LLP - Houston, TX</p>
10:30 am	<p>Break</p>
10:45 am 0.75 hr	<p>Phased Developments for Wind, Solar and Energy Storage Projects: Planning for the Future</p> <p>Developers are increasingly entering into large interconnection agreements, which have capacity for multiple projects to be developed—whether, wind, solar, energy storage, or a mix of all three. Hear a high level overview of phased energy developments including common issues that arise from such phased developments, and how to structure co-tenancy, shared facilities, shared premises, build-out, and similar agreements to address the same.</p> <p>Danny Kach, Kach Law LLC - Chicago, IL</p>
11:30 am 0.50 hr	<p>“Boilerplate” Clauses in Wind Lease Agreements</p> <p>What lawyers should know about common “boilerplate” clauses in wind lease agreements including insurance provisions, indemnity provisions, lender protections, estoppel clauses, and assignment clauses.</p> <p>Lisa Marie Chavez, Wagstaff Law Firm - Abilene, TX</p>
12:00 pm 0.50 hr	<p>Title and Survey Essentials: State Variances / Wind and Solar Distinguished</p> <p>Discuss the variances across state lines in title insurance practice and surveys for renewable energy projects, from available risk mitigation endorsements to pricing. Learn the differences in title risks and concerns in utility scale wind projects versus solar projects.</p> <p>Larry Bonney, Foley & Lardner LLP - Milwaukee, WI India James, Exelon Corporation - Chicago, IL</p>

The Waltz of the Five Es

Energy, the Economy and the Environment are intimately intertwined. Actions effecting one “E,” such as environmental policy, a major energy discovery or breakthrough, or economic recession, impact the other “Es,” often in unexpected ways. Energy Efficiency represents a major opportunity for reduced energy consumption and positive environmental impact. And thoughtful, objective and balanced energy Education helps the intentions of public policy to be reflected by actual outcomes.

C&I Energy Purchase Contracts

Corporates and industrials (C&I) are now major purchasers of green energy. According to Bloomberg, C&Is and wind companies signed 20 deals in 2015 with a total of 2.3 GW. By August 2016, 9 deals for 630 MW had been signed—with many more reported to be under negotiation. Explore the future of C&Is as a major class of buyer. Will the trend continue? What could stop it? What’s the prognosis for utility-scale solar C&I deals? What new markets (geographically) are C&Is interested in? What are the key contractual and financial terms that C&Is and developers have to resolve to get to a deal and to get projects financed and built?

Attorney-Client Privilege: Best Practices for Keeping Privileged Information Privileged

Business structures today are more complex than before and create a variety of new issues around the attorney-client privilege. Review best practices for addressing some of the more common issues, including privileged communications involving consultants, advisors, joint ventures, portfolio companies, mergers, and affiliated entities.
