THE PROBLEM (a planning opportunity & risk)

- *Beneficiaries are humans with care needs*
- *By 2050, 1 in 5 Americans will be elderly humans*
- *CMS: “70% of people > age 65” will need LTC*
- *People of any age often survive, and thrive, after injury or with long-term disabilities, with proper care*
- *Cost of LTC not covered by medical insurance (not Medicare, Obamacare, only LTC Insurance)*

FARRELL & JOHNSON PLLC

Who is this that “*may need* long-term care”?

- *Spouse, Dependent (parent, child, sibling)*
- *Remote Contingent beneficiary (currently healthy)*

“Things can change quickly”
