 - Realization requirement: imposed upon realization or certain pre-realization events
 - Gross receipts requirement: imposed on actual receipts or gross receipts computed under a method likely not to produce result exceeding fair market value

 - “*Nonconfiscatory gross basis tax*” rule allowed section 901 credit for tax on gross income or receipts if it is “almost certain” to reach some net gain in the normal circumstances in which it applies (primarily applies where businesses subject to the tax are almost certain never to incur an after-tax loss)
