Refresh: How Does the IRS Define “Political Activity”?

- **Very broad definition:** Any “participat[ion] or interven[ion]...in any political campaign on behalf of (or in opposition to) any candidate for public office” is considered electioneering or political activity
 - Determined under a facts and circumstances test
 - IRS has provided examples of what is or is not political, as well as factors it will consider
 - IRS guidance in Revenue Rulings 2004-6 and 2007-41
- **Basic inquiry:** Is the organization signaling, directly or indirectly, through the content or delivery of its communications or activities, that it favors or disfavors any candidate or political party?
- **Partisan vs. Nonpartisan:** **Nonpartisan** election-related educational or civic engagement activity *may not* be considered “political” activity or campaign intervention

What does nonpartisan mean anyways???

Refresh: Examples of Partisan and Nonpartisan Political Activity

Yes – Partisan Political Activity

- Contribute to candidates
- Expressly support or oppose candidates
- Rate or score candidates on the issues
- Compare organization’s position to candidate’s
- Provide other assistance to candidates (in-kind contributions)
- Support other organizations’ political activity
- Target voters (by demographic or region) to produce a particular electoral outcome

No – Not (Necessarily) Partisan Political Activity

When consistent with the organization’s mission:

- Advocate for issues (**but** look out for wedge issues)
- Educate voters about issues or candidates
- Promote civic engagement – how to participate in elections
- Protect voters
- Produce legislative scorecards
- Educate all candidates
- Register voters without regard to voting inclination
- Get out the vote activities (GOTV)

Only if you do not favor one “side” over the other
