BUILD TO RENT

A screenshot of a website for 'Texas Homes For Rent' by Wan Bridge. The website features a navigation bar with 'About', 'Our Communities', '@WBlog', 'CONTACT', and '(713) 219-9400'. The main content area has a large aerial photograph of a residential development. Below the photo is the heading 'Texas Homes For Rent' and a 'Get In Touch' button. The text below the button reads: 'There's a saying that "everything is bigger in Texas," and that includes the opportunities available for renting single family homes without hassle. Due to the growing demand for rentals across the state, Wan Bridge is building new Texas homes for rent to make single family home living possible. According to U.S. Census Bureau data, the Lone Star State gained the newest residents of all 50 states (growing from nearly 4,000,000 people in 2010 to more than 29,000,000 as of 2020), from Galveston to Amarillo and just about every city in between, communities throughout Texas are flourishing. Wan Bridge is an industry leader currently developing brand new homes for rent in Texas, with more than a dozen build to rent communities already completed and many more in progress. We create stylish, sophisticated residences equipped with modern amenities and attractive interiors, prioritizing the wants and needs of future residents. Our communities are exclusively made up of rental properties, including both single-family properties, duplexes, and townhomes.'
