## What is a ULI Advisory Services?

- Programs to utilize the real estate expertise of our ULI members to assist government and nonprofit organizations with specific land use, or real estate development issues.
- Broad array of issues that may include infrastructure, water, affordable housing, funding sources, placemaking, partnerships, area planning goals, etc.
- We do not provide work product such as comprehensive planning, engineering, or land planning. We provide the framework, guidelines and road map to a solution, which could lead to professional service engagements from private vendors as the client implements its particular solution plan.
